1st ANNOUNCEMENT AND CALL FOR PAPERS

The Norwegian Institution of Rubber Technology (NGF) invites all rubber professionals to Oslo, Norway for the IRCO conference.

RubberCon 2012

14 – 16 May at Soria Moria Hotel in Oslo

The hotel is situated in a beautiful setting in the Holmenkollen area, with all facilities necessary to ensure a comfortable and enjoyable stay.

We also encourage you to take part in the Norwegian National Day celebrations on 17 May.

Holmenkollen is Norway's most visited tourist attraction and one of the most famous sporting arenas in the world. The new, spectacular Holmenkollen will play host to activities and events both indoors and outdoors. The premises are brand new and contain the very latest facilities.

Scope:

‘Advanced Rubber Technology for Demanding Applications in the Oil and Energy Industry’.

Topics

- Material developments for new oil and gas challenges
- Material development and selection for extreme temperatures and pressures
- Renewable energy / Offshore wind turbines
- Insulation for subsea applications
- New developments in materials and applications
- Standards and qualification test methods
- Chemical resistance
- Adhesion issues
- New sealing solutions
- Lifetime assessment and lifetime extension
- Elastomers in new applications
- Repairing rubber
- Rubber as a problem solver

We invite you to meet the leading experts and professionals in the rubber industry, and hear about the latest trends in the developments of materials and applications.

The RubberCon is organized by The Norwegian Institution of Rubber Technology (NGF) on behalf of The Nordic Council of Rubber Technology (NGTR).

The conference will open on Tuesday morning and will close at lunchtime on Wednesday. Registration will take place on Monday evening, followed by a welcome reception.

Proposals for presentations are now invited. A short abstract, of no more than one A4 page, should be submitted by 31 October 2011. The lectures will be PowerPoint-presentations of about 25 minutes.
